

Saving Time Saving Lives

NOW

3 Life-Guard helicopters

44 Ground ambulances

24/7

We are proud to provide immediate and 24-hour emergency transport capabilities to all of Virginia and parts of West Virginia, North Carolina and Tennessee, including:

- 3 Life-Guard helicopters based in New River Valley, Franklin County, and Rockbridge County
- 44 ground ambulances based at 9 locations throughout southwest Virginia
- A dedicated pediatric-neonatal transport team, available 24/7
- A 24/7 integrated Transfer Center and Transportation Communications Center that gives you direct access to an accepting physician and bed assignment as well as access the most appropriate mode of patient transportation. For emergent transfers, we can activate one of our Carilion Clinic Life-Guard helicopters and have them en route to the patient simultaneously while the patient is being accepted. During weather conditions that prohibit air transports, our Life-Guard teams are available to be sent by ambulance to provide critical care ground transportation.

Dispatch: 888-377-7628

Transfer Center: 888-TO-HEALTH (888-864-3258)

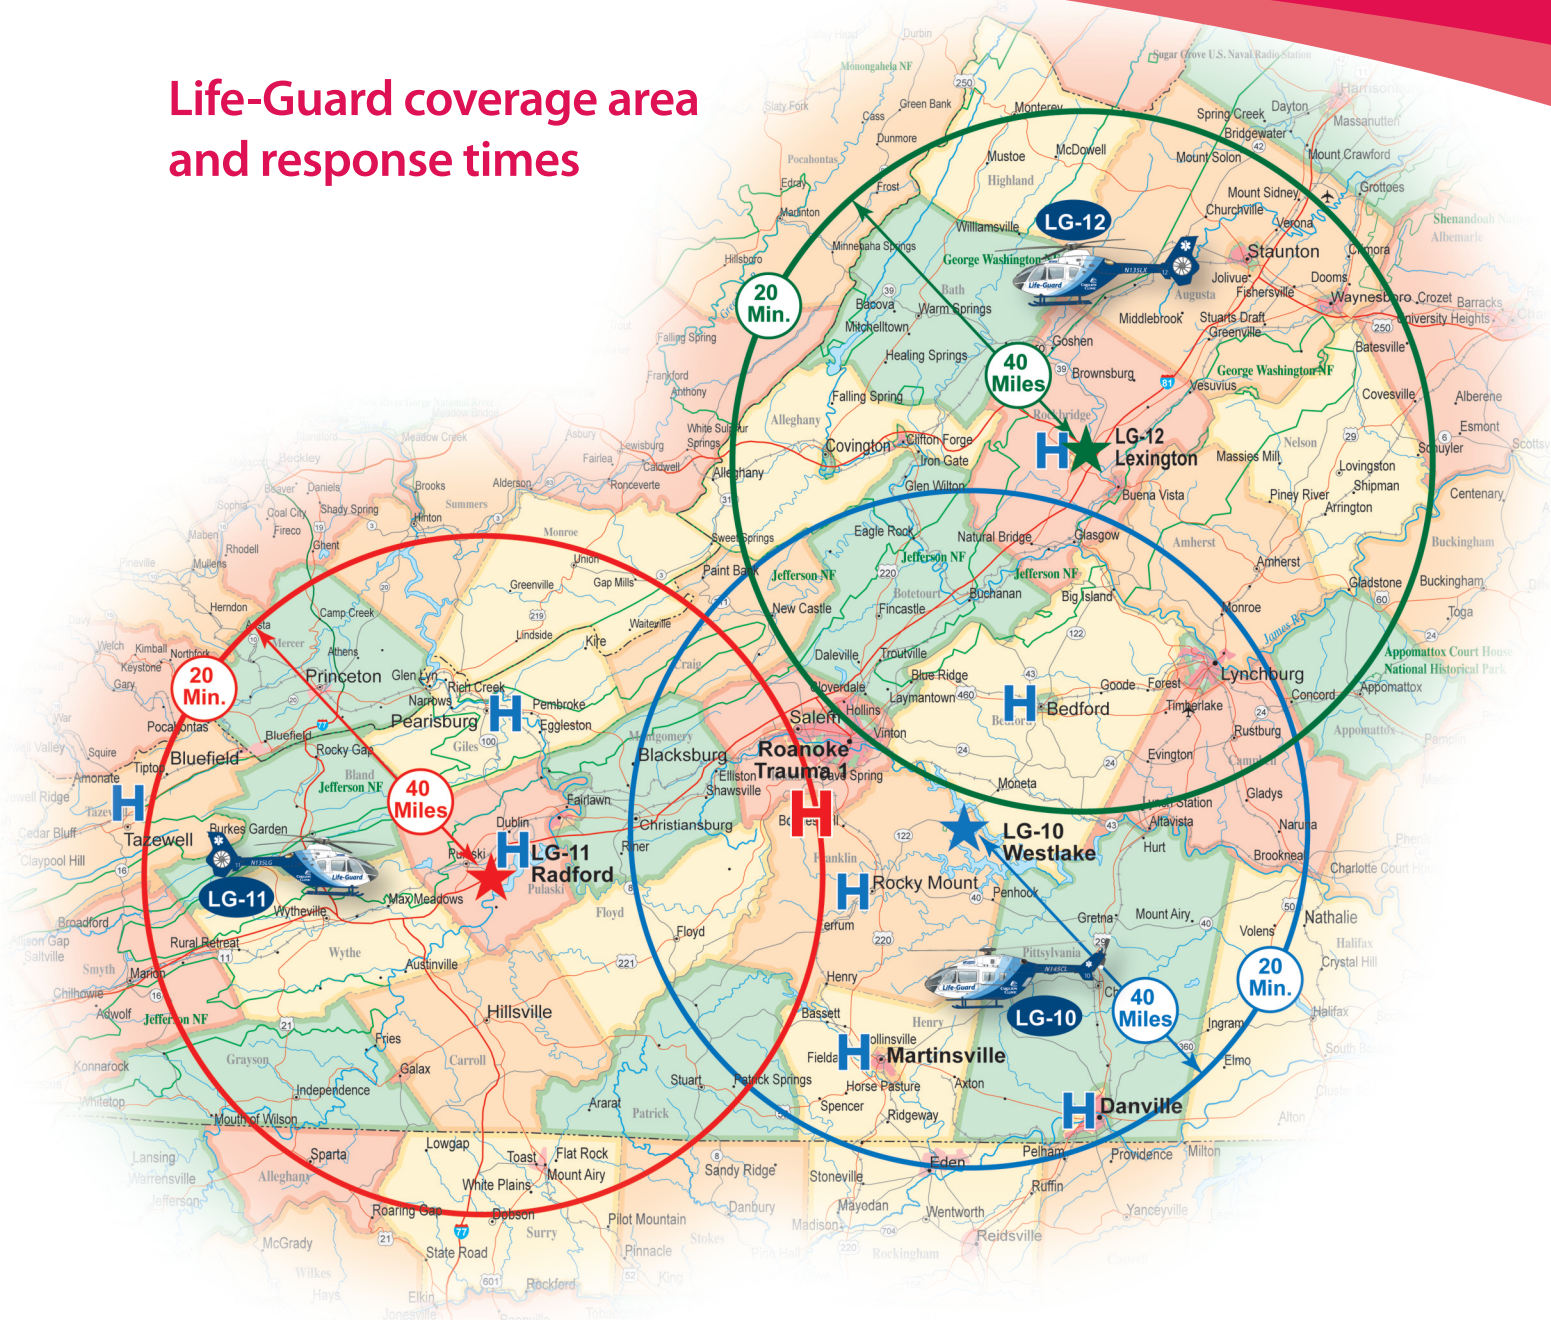

(see back for Life-Guard flight coverage)
